

## Laser Therapy Treats Arthritis

Arthritis is one of the most common chronic conditions, and also one of the most difficult to treat.

**Patient:** "Pokey", 16 year old feline

**Problem:** Geriatric osteoarthritis, stiffness, and loss of muscle mass.

**Procedure:**

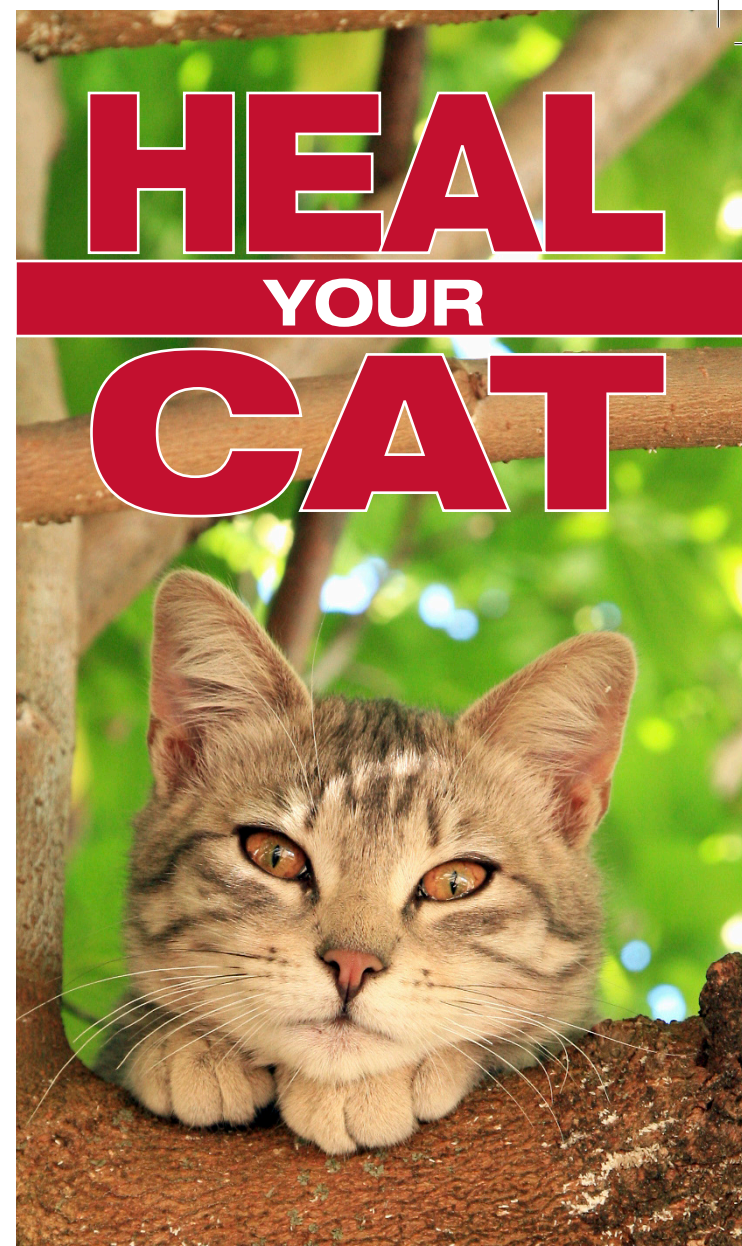

Treatment using the Companion Therapy Laser to reduce pain, inflammation and stiffness, enhance mobility and improve the quality of life.

**Results:**

Twenty-four hours after the initial treatment, Pokey trotted for the first time in over a year. With subsequent treatments, mobility and activity increased and Pokey moved in a wider range around his home.

*"They have spent their whole life being your friend. Isn't it time you helped them through the aches and pains of everyday life?"*

- Post Declaw Pain Relief
- Periodontal Disease
- Tooth Extraction Pain Relief
- Ear Infections
- And more . . .

## The Science Behind Laser Therapy

Your veterinarian is now offering the latest technology in health care for your feline. This FDA cleared, deep-penetrating light allows relief of pain through the release of endorphins and stimulates the injured cells to heal at a faster rate.

When choosing a treatment option for your feline companion there is now an alternative to pharmaceuticals. The Companion Therapy Laser®, by LiteCure provides immediate results without any dangerous side effects.

The Companion Therapy Laser® is great for canines too!
